PORTFOLIO

PROFILE

I am an immediate joiner , I'm proficient in Java and databases. I am looking forward to a successful career with a strong dedication to development, education, and innovation. I want to make the greatest use of my abilities and experience to help the organisation reach its objective. I could significantly benefit the organisation with quick learning and effort.

SKILLS

Programming Languages : java, php,

MySQL ,HTML,CSS ,JS .

Framework: Bootstrap

Tools: visual Studio code ,IntelliJ IDEA .

Web Server: Apache.

Database : MySQL .

Version Control : GitHub,git .

PROJECT

Chat Bot - The chat bot is created with a signup and login page and in it the user can use the chat bot functionality by creating his own username and password. Basically the chat bot stores predefined questions and their answers. In this project I have used HTML, CSS, Java script in the frontend and PHP, My SQL in the backend with Xampp server.

CARRIER OBJECTIVE

I am seeking a challenging position as a Java Developer where I can apply my expertise in Java programming, software development methodologies, and problem-solving skills to create robust and scalable applications. I strive to collaborate with a dynamic team in an innovative environment, where I can continuously learn and grow as a professional. My objective is to contribute to the success of projects by designing and implementing efficient algorithms, optimizing performance, and ensuring code quality through testing and debugging.
